Minimalist dream house with private sea access

Situated on the side of a cliff facing the calm waters of Es Cubells natural park, this eight-year-old waterfront resort is all about privacy.

This three-level villa has been carved like the image of an ocean cruiser into the rocks of Es Cubells balconies, and is sun-splashed from early morning to dawn.

Five bedrooms and bathrooms to choose from, an ample salon, reception hall and dining area, full of art and tribal objects from all over the world give the whole place a bohemian feel. The soul-calming, uninterrupted sea views, which you get from all points of house and terraces are priceless. Take a leisurely stroll down to the pebbly beach and skinny-dip into the ocean - no paparazzi will be able to find you here. If you prefer it big style, leave your yacht at the private mooring below the house, and you will not even need a car to get around.

House has been the first minimalist villa on the island, a haven of peace and tranquillity set in one of the most well renowned districts and finished with unrivalled distinction. It is the preferred hideaway for celebs and stressed out entrepreneurs.

Three-Level villa distributed into:
