

New Development in the centre of Santa Eulalia

BEDROOMS 2 BATHROOMS 2 AREA 90m2

New Development in the centre of Santa Eulalia

New building project of 24 apartments located in the centre of Santa Eulalia. The construction of these apartments combines modern architecture, built with eco-friendly material & natural woods, with a focus on the sustainable features of latest technologies.

Every apartment has two bedrooms and two bathrooms. The master bedroom offers a bathroom en suite. The living room is connected to the fully equipped kitchen.

There is direct access to the terrace from the kitchen, for moments of relaxation, this is a beautiful place to be.

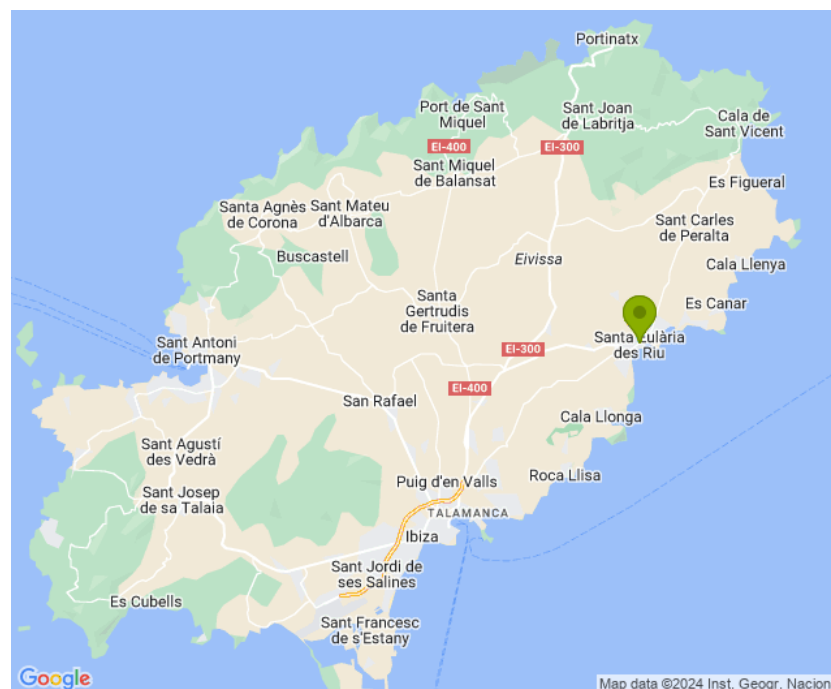

The fixtures & fittings provide all the comforts, centralized air conditioning in all the rooms, high-speed internet connection.

From the parking area, there is easy access to the apartments and elevator, the parking is underground and is included in the price.

This homely project is planning to be completed and ready for the new owners by March 2023, but is now available for sale at today's price with Ibiza Services Real Estate. Purchasing at the market price now will prove to be a great investment upon completion of the development.

The community area offers a beautiful Mediterranean style garden and swimming pool, the building as well as each apartment will provide warmth by the use of natural wood and eco-materials.
